

Construction Site Journal

(your total grade is 100 points per construction site visit)

Name:

Date:

Instructions

Below are required journal phases you must complete after each visit to the construction site, for a total of one hundred (100) points. These phases/questions are designed to help engage you to think about why you are on the construction site and for what purpose. You may complete your journal as homework, etc. In this regard, **YOU** are totally responsible for completing your journal and making it available for your instructor during the next class - following your construction site visit.

The grade you receive from each visit and/or each journal will factor into your overall construction grade per six (6) weeks, etc. Unless listing is otherwise noted or requested (e.g., a, b, c, etc.), use complete sentences and proper English.

Phase One (5 points)

Describe the overall project on which you are working (e.g., building a house, etc.) and the specific building phase or process on which you are currently working (e.g., plumbing, electrical, concrete, etc.).

Phase Two (5 points)

List the tasks on which you worked during your last day on the construction site. You may list your tasks or activities. You must be specific.

Phase Three (5 points)

List the special issues and/or problems associated with the tasks you performed. In other words, were there any issues or problems experienced during the process?

Phase Four (5 points)

What tasks were done to correct the problems and/or issues located in *Phase Three* (3)?

Phase Five (5 points)

Describe the weather conditions during your visit to the site. You must be specific.

What is the weather prediction for your next site visit?

Phase Six (5 points)

What was important about the task you performed today?

Phase Seven (5 points)

What tools and/or supplies did you use to complete your tasks?

Phase Eight (5 points)

How did the tasks you performed relate to the overall building or construction process?

Phase Nine (5 points)

What were the most exciting things you did today on the construction site?

Phase Ten (5 points)

List some of the things you learned during your visit to the construction site today?
